Experts in
wind turbine
logistics

Experts in wind turbine logistics, Mywindparts is your strategic partner in the management of supply chain logistics. Mywindparts brings you its expertise in defining relevant stocks and determining minimum safety stock.

What do we do ?

We optimise the performance of your machines by supplying you with spare parts sourced with minimal lead times, and by advising you on your stock balances.

A partner of the leading turbine manufacturers, Mywindparts supplies you with all the electrical, mechanical and hydraulic parts you need.

Mywindparts covers the whole of Europe for main components, wearing parts or consumables.

Mywindparts, wind turbine technical support

More than just a spare parts distributor, Mywindparts understands your industry sector's constraints and the extent of your economic challenges. We are able to offer you **effective performance tools** because of our expertise.

- Do you want to optimise your safety stock ? Mywindparts provides personalized professional advice. On a completely confidential basis, we analyse your inventories and are capable of correlating them with the average stock rotation rates industry wide.

- Do you need technical support on all components (equivalent parts, part repairs, etc.) ? Are you looking for a specific part ? Are you experiencing a stock shortage ? Mywindparts provides just the right solution for you, one that's time efficient, both technically and financially.

Who's behind Mywindparts ?

Engineers with a passion for wind turbines, including Sébastien Duchesne, with proven expertise in purchasing and logistics. Sébastien has launched Mywindparts with the support of a network of preferred partners, wind turbine and spare parts manufacturers in France and in Europe.

An innovative service : restore life to your old parts

Mywindparts considers that each part can have its life extended. To achieve such a result, a one-of-a-kind repair service takes your parts, diagnoses them and restores them.

Please contact us for further information.

Mywindparts, the strategic partner for managing your supply chain and handling your requests within 48 hours.
