

# Mywindparts and Altra Renewable Energy Partnership for motion control

Industry leader in power transmission and motion control products, Altra Renewable Energy and its brands are working with Mywindparts to provide critical drivetrain solutions, and support customers in lowering their OPEX and supply chain complexity.

**Altra Renewable Energy, part of the Altra Motion Group, offers :**

a comprehensive offering of engineered power transmission products for wind turbines including:

- blade pitch,
- yaw and rotor brakes,
- hydraulic Power Units,
- rotor locks,
- shaft couplings & locking devices,
- access hatch actuators,
- tools to carry out yaw brake maintenance.

**Mywindparts** and **Altra Renewable Energy** engaged into a partnership to offer complete powertrain solutions, proposing the 5 brands that support the wind turbine market:

**Ameridrives** : couplings and universal joints.

**Stromag** : power transmission components for industrial drivetrain applications.

**Svendborg Brakes** : braking solutions (brake discs, pads, cooling system...)

**Twiflex** : pneumatical, hydraulic, and mechanical industrial disc brake calipers

**Warner Electric** : electromagnetic clutch and brake solutions.

Submit your requests of Altra Motion products to **Mywindparts** to get :

- Technical advice,
- Attractive prices,
- Availability with reduced delays,
- Guaranteed quality of the products ordered.
