

# Mywindparts and ORGA

join forces to offer you the best solutions for assessment and security for wind turbine sector

To guarantee the optimum safety of your wind turbines, high-rise structures and telecom installations in all circumstances, ORGA has developed a complete series of smart obstruction light solutions. Orga's smart lighting system consists of :

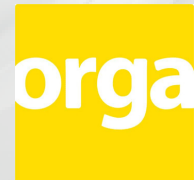

- High, Medium and Low Intensity LED obstruction lights,
- A visibility meter,
- Helihoist-SRO light,
- System controllers, junction box and a battery backup system,

suitable for onshore and offshore and working with ADLS. All products comply to ICAO specification. FR1 and FR2 models are certified by STAC.

Mywindparts now becomes your preferred distributor and interlocutor for the flashlights and the batteries backup system.

Our sales team, Guillaume, H elie and S ebastien will answer all your technical and pricing requests within 48h. Our experts can also advise you on compliance with local aviation regulations.
